INDEX TO VOLUME 1

Aiton, E. J., essay review of Truesdell, *Essays in the history of mechanics*, 265
An Approach to the History of Early Astronomy (R. Palter), 93
Atoms and the 'Analogy of Nature' (J. E. McGuire), 3

Beckman, T. A., On the Use of Historical Examples in Agassi's 'Sensationalism', 293
Books received, 87, 185, 275, 381

Chambers, R., *Vestiges of the natural history of creation* (essay review by F. N. Egerton), 177; corrigendum, 383
Communication (E. Robinson), 145
Corrigendum, 383

D'Alembert and the *Vis Viva* Controversy (C. Iltis), 135
Daniell, J. F., and the Boscovichean Atom (M. A. Sutton), 277
Daub, E. E., Maxwell's Demon, 213
Discussion (A. C. Michalos), 353
Dorling, J., Maxwell's Attempts to Arrive at Non-Speculative Foundations for the Kinetic Theory, 229
Drake, S., and Drabkin, I. E., *Mechanics in sixteenth-century Italy* (essay review by C. B. Schmitt), 161

Editors' notes, 1, 188
Egerton, F. N., essay review of Chambers, *Vestiges of the natural history of creation*, 177; corrigendum, 383
Essay reviews, 161, 265, 363
Essays in the history of mechanics (C. Truesdell), essay review by E. J. Aiton, 265

Feyerabend, P. K., In Defence of Classical Physics, 59

Heimann, P. M., Molecular Forces, Statistical Representation and Maxwell's Demon, 189

Iltis, C., D'Alembert and the *Vis Viva* Controversy, 135
In Defence of Classical Physics (P. K. Feyerabend), 59

Knight, D. M., essay review of Schneer, *Mind and Matter*, 363

Mahoney, M. S., essay review of Neugebauer, *Vorlesungen über Geschichte der antiken mathematischen Wissenschaften*, 369
Maxwell's Attempts to Arrive at Non-Speculative Foundations for the Kinetic Theory (J. Dorling), 229
Maxwell's Demon (E. E. Daub), 213
McGuire, J. E., Atoms and the 'Analogy of Nature', 3
Mechanics in sixteenth-century Italy (S. Drake and I. E. Drabkin), essay review by C. B. Schmitt, 161
Michalos, A. C., Discussion (Theory Appraisal and the Growth of Scientific Knowledge), 353
Mind and Matter (C. J. Schneer), essay review by D. M. Knight, 363
Molecular Forces, Statistical Representation and Maxwell's Demon (P. M. Heimann), 189

Natural Selection in *The Origin of Species* (M. Ruse), 311
Neugebauer, O., *Vorlesungen über Geschichte der antiken mathematischen Wissenschaften* (essay review by M. S. Mahoney), 369
Notes on contributors, 90, 186, 276, 382

On the Use of Historical Examples in Agassi's 'Sensationalism' (T. A. Beckman), 293

Palter, R., An Approach to the History of Early Astronomy, 93
Priestley's Library of Scientific Books: A New List (Communication by E. Robinson), 145

Robinson, E., Communication (Priestley's Library of Scientific Books: A New List), 145
Ruse, M., Natural Selection in *The Origin of Species*, 311

Schmitt, C. B., essay review of Drake and Drabkin, *Mechanics in sixteenth-century Italy*, 161
Schneer, C. J., *Mind and Matter* (essay review by D. M. Knight), 363
Simpson, T. K., Some Observations on Maxwell's *Treatise on Electricity and Magnetism*, 249
Some Observations on Maxwell's *Treatise on Electricity and Magnetism* (T. K. Simpson), 249
Sutton, M. A., J. F. Daniell and the Boscovichean Atom, 277

Theory Appraisal and the Growth of Scientific Knowledge (Discussion by A. C. Michalos), 353
Truesdell, C., *Essays in the history of mechanics* (essay review by E. J. Aiton), 265

Vestiges of the natural history of creation (R. Chambers), essay review by F. N. Egerton, 177; corrigendum, 383
Vorlesungen über Geschichte der antiken mathematischen Wissenschaften (O. Neugebauer), essay review by M. S. Mahoney
